Mother's Day card

What you will need:

- **Card/paper**
- **Paint**
- **Pen**
- **Scissors**
- **Glue**

How to Make:

- Fold the piece of card in half.
- Help your child paint or dip their full hand into their desired colour and place onto the card/paper to create a full print of their hand.
- Encouraging or assisting your child dip their finger(s) into another colour of paint to create the petals around the stem of the flower.
- Draw and cut out a flowerpot shape, using glue stick the pot at the bottom of the flower.
- Write your chosen message onto the pot – (*Message in picture reads – 'I've made some Mother's Day flowers, with my fingers and my thumb, So you'll always have these memories, for all the years to come')*

Benefits

- Encouraging fine and gross motor skills by using and discussing different body parts such as hands and fingers
- Encouraging communication by discussing colours and shapes
- Exploring sensory play using the paint and glue, discovering new sensations and textures
- Working together with parent/carer or sibling to create a gift for someone special.
