

Stick mobile

What you will need –

- Handful of sticks to hang things from
- String
- Scissors
- Tape
- Pine cones
- Flowers
- Leaves
- Grass
- Any natural resources found

Method:

1. Gather as many different natural items when out on a walk - sticks, pinecones, flowers, feathers, long strands of grass
2. Use string to attach to items, or stick with tape
3. Start to attach your string to sticks
4. Once all tied together use as a sensory experience exploring the different colours, smells and textures of your mobile

Benefits:

- A creative sensory activity
- Enables all to engage with outdoors and nature
- Offers experience collecting and choice making
- Helps develop fine motor skills
