

Christmas Sensory Story

What you will need –

- Tinsel
- Keys
- Small Blanket
- Bells (optional)

Christmas Sensory story

Method:

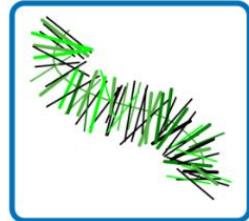

1. A sensory story is inclusive and interactive allowing the child to help to tell the story. It can be made accessible for the child's needs. It is fun and should be consistent, so they learn through consistency and repetition.
2. Select the items needed for the story, get settled in a calm and quiet space so as to enable child to focus on the story.
3. See the story below to give you a guide on what to do.

Benefits:

- Build concentration skills.
- Allows you to focus on their likes/dislikes and gives them the choice to engage.
- Promote communication, by responding to child's choices and their reactions. Develops understanding that you listen when they communicate in whatever way child can.

Sensory Story - Santa is nearly here!

Santa is nearly here! Let's decorate the Christmas tree. **(Explore tinsel)**

Santa is nearly here! I hope he has his magic key. **(Shake and explore keys)**

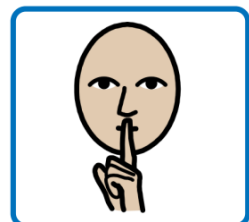

Santa is nearly here! Let's snuggle down to sleep. **(Wrap child up in a blanket)**

Santa is nearly here! Shall we have a peep? **(Play peek a boo with blanket)**

Santa is nearly here! Shall we tiptoe down? **(Put finger to lips, Shhh!)**

Everyone let's celebrate because Santa's been to town!!! **(Ring bells/ Clap)**
